

Joshua is now a happy 8-year old boy. He loves to play with his older brothers and listen to music. Joshua is into technology, and just got an iPod touch for Christmas, which he loves. Cardiology visits are still very important for him because he only has half of a heart; we have to make sure that the half is running really well and that there are no problems. Luckily, his heart is functioning well, but he does have some valve leakage this year that he did not have before. Joshua hopes to play baseball again this spring and play golf with his Dad. He continues to wear his medical ID everyday which gives us both peace of mind.
